

7th June 2018

To Rowan Class Parents / Carers

Dear Parents / Carers

This term our topic is 'holidays' and I'm sure that it is set to be an interesting learning experience for the children. Our topic sessions will involve a closer look at holidays around the world and seaside holidays in the past. We will be creating some interesting seaside inspired art. Our design technology unit is called seaside treats and involves making and eating a range of seaside inspired treats. I have no doubt that these sessions will be very well received.

In English we will be focussing on seaside poetry and tales to extend our learning on the topic and also some fictional writing linked to our topic. As always we will include both fiction and non-fiction units.

In Maths we aim to focus on multiplication and division, position and direction, shape and time. We'll end the term by consolidating some of the key concepts we've learned this year.

Our R.E topic is 'Judaism' and we will learn about Jewish traditions.

In P.E. we are fortunate to be able to have Mr Lewis teaching us Gymnastics and we will learn to play Kwik cricket too. We will be learning some summer songs for our singalong later in the term. We are all looking forward to our trip to Chessington and our YR/YR1 Pirate party.

We are looking forward to a very busy and most enjoyable term.

Yours sincerely

Mrs Hart, Mrs Hopkins and Mrs McNama
